

Enter and Work in Confined Space Course

Confined spaces are commonly found in tanks, ducts, flues, chimneys, containers or other similar enclosed or partially enclosed structures. They pose dangers because they are usually not designed to be areas where people work.

This course is appropriate for those working in operational roles undertaking work in confined spaces in the Resources and Infrastructure Industries. It is designed to teach participants how to identify confined space hazards, work safely within confined spaces according to an issued permit and operate various confined space safety equipment.

This training is required for anyone who may be required to act as a standby, operate gas detectors or to safely and efficiently enter and work in a confined space. On completion participants will be able to competently understand legislations and standards applicable to enter and work in confined spaces and:

- obtain appropriate entry permit and instructions for performing work in confined space
- interpret and apply safe work method statements
- apply tagging and lock out
- select, wear and care for personal protective equipment
- use atmospheric monitoring devices prior to entering the confined space and during confined space activity
- applying safe materials handling methods
- remove tagging and lock out, and cleaning up the area

Provider of Training and Assessment

This course is delivered and assessed on behalf of Allens Training Pty Ltd RTO 90909 by **Skylar Safety**.

TRAINING AND ASSESSMENT DELIVERED ON BEHALF OF

Important information prior to enrolment

Unit(s) Being Delivered

The following unit(s) will be awarded to successful participants in this course. The certificate will be issued by Allens Training Pty Ltd RTO 90909.

RIIWS202D Enter and work in confined spaces

To view full unit details please visit www.training.gov.au

Course Delivery

This course will be delivered in the workplace or at Skylar Safety's purpose designed training facility.

Entry Requirements

Participants must have the physical fitness to be able to meet the demands of the practical demonstrations for this course, such as the undertaking the requirements to safely enter, work in and exit a confined space wearing the appropriate PPE.

Course Duration (face to face)

- **Face to Face – 7 hours** (minimum) – full face to face course
- **Refresher training – 7 hours** (minimum) – conditions apply for this option, for example, you will need to provide previous current certificates.

Assessment Requirements

Individuals undertaking this course will be expected to complete both written and practical assessment tasks. These are detailed in the sections following.

Certificate Renewal Requirements

No industry recommended renewal is identified on the certificate, employers are recommended to consult with stakeholders to identify appropriate training periods.

Course Fees and Payments

- Please contact Skylar Safety for individual course fees.
- **Refund and fee protection policy** – Please refer to the student handbook.
- **Payment Terms** – Payment for individual participants is upfront, group booking payment terms are based on agreement between the client and service provider.

Work Placement Arrangements

No work placement will be required as part of this course.

Learners Rights, Responsibilities and Support, including Complaints

Please note that enrolment to this course is made with Allens Training Pty Ltd RTO 90909. Please refer to the student handbook located on the RTO website allenstraining.com.au for all details relating to rights and responsibilities including complaints and appeals.

What happens at the course?

Learning Activities

Delivery of course information and learning activities.

Assessment Activities

- **Practical scenarios:**
 - Side entry into confined space
 - Top entry into confined space
 - Ground level entry into confined space
- **Documentation** – Completion of a site-based Risk Assessment Form and an Entry permit.
- **Theory assessment** – A written exam consisting of multiple choice and short answer questions. All questions must be successfully completed.
